TEST REPORT

TEST TYPE : Viral Test for SARS-CoV-2 BRAND OF RAPID TEST KIT : Flow Flex
TEST METHOD : Immunochromatography

| NAME OF TEST | RESULTS |
|----------------------------------|---------------------------------|
| COVID-19 (Rapid Antigen Test) | SARS-CoV-2 ANTIGEN NOT DETECTED |

Note : Please note that the most recent guidance from the Ministry of Health requires persons receiving a POSITIVE COVID-19 result to self-isolate for 10 days from the date that the sample used for the test was taken.

If persons remain symptomatic after the 10 day isolation period then they should consult with a medical doctor.

Persons desirous of receiving a medical certificate from our facility, at the end of their isolation period, are required to consult with a Medical Doctor at our Accident and Emergency Department.
